

## Building and Growing Our Future Together

### Forward Motion Insider Update - August 18, 2017

Dear Insider,

I hope that this finds you well and enjoying the summer months! Here at GCS, we have been busy working on the **Forward Motion Campaign**. One task in particular has been working with the architect on the schematic layout for our new building. While this is still a work in progress, we thought you might enjoy a sneak peek at what's to come. Please visit [www.gcsforwardmotion.org](http://www.gcsforwardmotion.org) to see what we have been working on!

Some of the exciting elements our updated and expanded facility will include are: larger and brighter classrooms; a welcoming entrance, lobby and hallway; a dedicated children's library and technology center; a "multi-purpose" Community Room; staff and conferencing areas; and enhanced storage space, as well as additional child and adult restrooms. It's amazing to experience the level of planning that goes into getting the many details (such as where all the doors will go!) just right. We are so grateful for the hours that our team of architects, GCS staff, and volunteers have put into this endeavor, all to make GCS the best it can be!

We welcome your comments and questions about the project, and invite your help in spreading the word about our efforts and the importance of our **Forward Motion Campaign** for Groton Community School.

Best wishes for an enjoyable end of summer!

All my best,

A handwritten signature in blue ink that reads "Debbie MacDonald".
