

Building and Growing Our Future Together

Forward Motion Insider Update - January 26, 2017

Dear Insider,

Greetings from Groton Community School. As promised, I'm writing to provide you with this second update on the Forward Motion Campaign. I am both thrilled and grateful to be able to share the news that gifts and pledges to the campaign received to date total \$1,984,328!

While this milestone represents tremendous progress, we still have much to do to reach our campaign goal of \$3.85 million. We are more committed than ever to the work of sharing our plans with the many friends and supporters of GCS whose help will be crucial in achieving this goal.

To that end, two past GCS families have graciously offered to host small informational gatherings in their homes in February and March. In addition to these events, Trustees and members of the Steering Committee will begin scheduling meetings with individual families to share our vision for the renovation and expansion of the school building, as well as to explain the positive impact that these improvements will have on our program.

Please let us know if you are interested in hosting a small gathering in your home to share information about the Forward Motion project with friends and neighbors.

As always, we deeply appreciate your continued interest and participation in these efforts to ensure a promising future for our families and community.

All my best,

A handwritten signature in blue ink that reads "Debbie MacDonald".
