

Groton Community School Kindergarten Testimonials

I would like to thank all of the staff at Groton Community School for the care and dedication they have given to my son and all of the children that come through their doors. I would especially like to comment on the incredible Kindergarten program that they offer. My son had such a wonderful experience in Preschool and in the Kindergarten program. While there is too much to list, I can say that the enthusiasm that is put into the programs along with all the small touches that helped him get ready for first grade were amazing. Having a small class with two teachers also afforded a lot of one on one time and I feel really blessed to have found this gem of a school. GCS has greatly contributed to my sons love of learning along with setting the stage for him to feel confident going into first grade. I highly recommend GCS to anyone looking for a Preschool and or Kindergarten program for their child. When asked by other parents to describe GCS I always say, "I feel like I won the lottery, GCS is like one "BIG HUG". It's a terrific school!"

Sending my daughter to GCS for the last 4 years starting from Aqua Room to Kindergarten was the best decision we made!! She had the best experience of learning, meeting new friends and just being so happy about going to school!!!! I can't say enough about all the teachers and the administration!! They all embraced us from day one and still do even though we have moved on to first grade. They are the most dedicated and loving group of teachers and we were blessed to have them in our lives!! The choice is easy when you want to send your child somewhere for their preschool years... GCS ALL THE WAY... BECAUSE GCS IS THE BEST!!!

Shagufta Rahman

We enrolled our son in the GCS private Kindergarten program for numerous reasons, but top of our list was class size and the amazing reputation that surrounds GCS. The public school's Kindergarten program was at unprecedented size, with 22+ kids in each class. We wanted to start our son off in an academic but nurturing program with a ratio that was better suited for five-year-olds. GCS has 2 Kindergarten teachers dedicated to their class with a maximum of 16 children. GCS is knowledgeable about state frameworks for their Kindergarten program which we knew would make for an easy transition for our son into our public school system down the road.

In retrospect, I realize it was the BEST decision we could have made for our son. What an amazing school, caring and committed teachers, and a fantastic classroom! At the onset, our son was not very interested in school - he struggled with writing and did not have confidence academically. We realized his experience in Kindergarten would be defining for him – it is such an important foundation for subsequent school years. The progress we observed at GCS with our son's writing, reading and overall passion for learning exceeded any and every expectation we had. It was measurable, consistent and transformative for him. He LOVED it there. After graduating GCS, he successfully transitioned to our local public school. Kudos to GCS's close relationship with the public school system and aligning with the current methodology used for reading, writing, math, etc. My only regrets are 1) that we didn't enroll him in the GCS Pre-K program and 2) that he had to graduate and move onto public school. We wish GCS offered grade school!
