

Building and Growing Our Future Together

Forward Motion Insider Update - February 2, 2020

Dear Insider,

Happy New Year! As we turn the calendar page and embark on a new decade, we continue to make progress with the transformation of our GCS home at 110 Boston Road.

Each time we bring you an update, we strive to recognize the many wonderful staff members, volunteers, and friends of GCS who devote countless hours behind the scenes to help the school carry out its mission and realize its goals. One of these helpers, Emily Crouse (Buildings & Grounds Co-chair, GCS Board of Directors), provided this latest construction update:

*"Though winter has arrived, slowing visible **Forward Motion** construction progress some, our contractor has adjusted and finished pouring all of the building footings by the end of last week. This means that over the course of the next month you will see new exterior wall framing and trusses, as well as steel going up. It's going to be a busy site! Happening behind the scenes is much coordination with the town and utility companies so that when the spring thaw does come, we can hit the ground running."*

Thank you for your ongoing support of **Forward Motion**, as well as your help in spreading the word about our progress on this first phase of the project. All my best wishes for you and your family in 2020!

With gratitude,

Debbie MacDonald, co-chair Forward Motion Campaign
